

Culcheth Community Primary School

Where Learning is Fun!

### **School Improvement plan 2020 -2021**

This is your guide to our aims for this year

#### 2020/21

Here are some of the things that we did last year to improve our school:

- We improved phonic knowledge and spelling across school by introducing a new spelling scheme
- We focused on improving reading right across school
- All subject leaders attended training to ensure that they can lead and develop their subject across school
- We arranged a wide range of trips and visits to extend our children's real life experiences
- We successfully re-opened school to all classes before Summer so that all families who wanted their children to return were able to do so
- We provided effective online learning during lockdown for all of our families
- We provided additional support for families in need and for key worker families during lockdown

#### **What is a School Improvement Plan?**

Our school improvement plan is simply a list of things to improve our school.

We all know that our school is a very special place but we want to keep on working together to make it even better!

Every year the teachers and Governors work together to make a plan of all the things that we would like to do to make your time at Culcheth the very best that it can possibly be. To help us to choose the right things we listen to lots of people – children, parents, Governors and friends of our school.

Then, throughout the year, we all work really hard together to make sure that all these things are done.

Finally, at the end of the year, we check to make sure that we have done everything that we wanted to before we start again with even more exciting ideas.
